Message from the Principal

Dr. Humby

As we begin semester 2, I want to take a moment to reflect on the first half of the year. I am so proud of the hard work and growth of our students. Many have been stepping up and completing courses, while others have been reaching out to get back on track.

As we move forward into semester 2, I encourage students to reach out to their teachers, pop into the building for extra help and take advantage of as many classes as they can.

Parents and Guardians, your support plays a critical role in our student's success.

Please reach out if you have any questions or concerns.

Respectfully,
Melissa Humby

Spring Into Wellness: Embracing the Longer Days

As winter fades and the days grow longer, it's the perfect time to refresh your mental well-being. More sunlight and warmer weather can boost mood and energy, so take advantage of the season by spending time outdoors, staying active, and reconnecting with others. Spring is a great reminder that change can be positive—embrace it by setting new goals, practicing self-care, and prioritizing your mental health. Small steps can make a big difference!

Ways to Stay Active:

- Go for a walk or bike ride in nature
- Try yoga or stretching
- Join a recreational sports league or fitness class
- Start a garden or do some spring yard work
- Take walking meetings or breaks outside if the temperature allows

Enjoy the season and make the most of the extra daylight!

Wetaskiwin Outreach

For Valentine's Day, our Wellness Team worked with Outreach students to create Valentine's Day cards for grade 2 students over at Clear Vista

Ribbon Skirt Making

Mrs. Scott

We recently finished the first cohort of students making ribbon skirts. Our group of students took a trip to choose fabric and ribbon to suit their personal style. They learned to plan, measure, cut, pin and sew beautiful skirts. So much talent!

Everyone is welcome to join this course to earn 1 credit and create a beautiful skirt. The second cohort has been invited to the Google Classroom. Once all forms have been signed we will start the next class!

Believe you can and you're halfway there.

~ Theodore Roosevelt

Junior High Alternative Program

Mrs. Revell

In the WO Jr. High classroom we have been working on learning to use the pythagorean theorem to solve math problems. Students have also been using the ALIS website to get more familiar with their personal strengths, learning styles, and intelligences. Our room is always filled with personal projects including making bath bombs/sugar scrubs, painting, rubik's cube, stop motion videos, and many crafts this month!

Office Message

Mrs. Hill

Students, if you turned 18 between September and February, or will be turning 18 in March, please contact the office. Alberta Education classifies you as an Adult Student and requires certain paperwork to be completed in order for parents/guardians to maintain access to your school records.

Parents/guardians will no longer have access to your records three weeks after your 18th birthday, unless you provide written consent for them to retain access."

If you have received an email regarding lost textbook fees applied to your account, please look around your room, house, or car, as we would rather have the textbook returned. If it is truly lost, please pay the lost textbook fee as soon as possible to avoid being sent to collections.

Look for information on our webpage regarding re-enrollment for 2025-2026.

If you have any questions or concerns, please do not hesitate to contact us at 780-352-3655.

Mascot and Logo

Outreach has been working with students on a mascot and Logo. Here is our Turtle named Shelly and our Slogan "Setting Our Own Pace". Please let us know what you think. You can email Melissa.Humby@wrps11.ca or click on the survey link below: <https://forms.gle/MKjTHyedWTQt1Rvt9>

Science

Ms. Rymer

Welcome back to longer days!

Some news from the Science classes, Science labs are going to be starting back up again shortly. We will be setting up for Wednesday afternoons after lunch (1:30pm), hopefully we can do a combination of the different fields of Science. It does not matter which Science course you are taking or if you are even in Science this semester, all students are welcome. It has been a pleasure working with the students and their different discoveries through these experiments.

Keep working at completing assignments and studying for your exams (especially the diploma courses), so your courses stay fresh in your minds. Also a reminder that we have the Monthly Module Completion Ballots; every module of science or math that you are handing in you get your name in for the monthly draw.

Keep up the hard work!!!

~ Ms. Rymer

Inclusion Coach

Dr. Humby

IPPs have been updated. Many are still waiting for the parent/guardian's signature.

Please drop in to sign the IPP!

The next step is ensuring students are on track for semester 2!
